

MY TAX SPOT LLC

Electronic Records & E-Sign Consent

Consent to transact electronically; separate IRS signature authorizations remain required when applicable.

Consent to Electronic Records

I consent to receive agreements, notices, disclosures, and other records electronically in connection with services provided by My Tax Spot LLC.

Consent to Electronic Signatures

I intend my electronic signature or other electronic indication of assent to have the same effect as my handwritten signature where electronic signatures are legally permitted.

Access and Retention

I understand that I should retain copies of electronically signed records. I confirm that I have access to a device, browser, email account, and software needed to view and retain PDF or similar electronic records.

Right to Withdraw

I may request paper delivery or withdraw consent to electronic records for future transactions by contacting My Tax Spot LLC. Withdrawal does not invalidate records or signatures completed before withdrawal.

Identity and Audit Trail

I understand that the e-signature platform may record identifying information, timestamps, IP/device information, document version, and other audit-trail information.

IRS-Specific Authorizations

This consent does not replace an IRS-required signature authorization. When Form 8879 or another IRS authorization is required, I will complete the current required form using a process that satisfies applicable IRS rules.

I affirmatively consent to use electronic records and electronic signatures as described above.
